As a Full Stack Developer with 1.5 year of experience to secure a challenging position in this organisation in order to improve my skill and work for the growth of the organisation."Interested in Learning New Technology as full stack developer"

Experience

- **ASM Technologies ltd** August 2022 - Present
Full stack developer
 - The development of MERN (MongoDB, Express.js, React, Node.js) stack applications, demonstrating expertise in end-to-end web development.
 - Collaborated seamlessly with cross-functional teams to design, implement, and maintain robust web solutions using MERN stack technologies.
 - Implemented RESTful APIs to seamlessly integrate frontend components with backend services, ensuring efficient data flow and application functionality.
 - Conducted thorough code reviews and provided constructive feedback, adhering to best practices to maintain high code quality standards within the MERN stack.
 - Demonstrated expertise in server-side development using Node.js and Express.js, contributing to the scalability and performance of MERN stack applications.
 - Actively participated in daily scrum calls and collaboration within the MERN stack development team.
 - Employed responsive design principles to guarantee optimal user experiences across various devices, showcasing a commitment to accessibility and usability.
 - Conducted comprehensive unit tests to validate the functionality and reliability of MERN stack components, ensuring a robust and error-free codebase.

Education

- **Degree** 2017-2019
 - Dhirajlal Gandhi college of technology,
Bachelor's in Mechanical
- **Diploma** 2014-2016
 - Thiagaraja polytechnic college
Diploma in Mechanical
- **School** 2013
 - Bala Bharathi matriculation Higher school

Skills

- Html
- css
- Javascript
- Reactjs
- Nodejs
- Bhuma

Projects

React Native

Technology used : React Native,Figma

Description:

- Revolutionizing the way you share files, our app not only seamlessly connects to nearby Bluetooth devices for swift file transfers but also introduces a groundbreaking feature that allows users to effortlessly edit receiver configurations. No more hassles of unplugging memory cards – save time and enhance your user experience with the ultimate in file-sharing convenience.

Scope :

- I have design entire UI for our innovative file-sharing app, coupled with a sophisticated logger functionality. This robust logger not only enhances bug identification but also streamlines the debugging process,

Bhuma

Technology used : Bhuma

Description:

- Designed and crafted an intuitive and responsive web tool using bhuma, delivering a seamless user experience. Implemented modern UI components and interactive features to enhance user engagement.
- Bhuma offers a seamless experience for integrating sophisticated solutions into user workflows.

Scope :

- I have created various components such as bar charts, pie charts, and summary components that effectively showcase user data fetched from APIs or SQL servers.
